EDUCATION

G.L.A University

B.Tech in Computer Science and Engineering

Mathura, UttarPradesh

Aug. 2023 – Present

Morning Star Children's Academy

Senior Secondary School (12th)

Orai, UttarPradesh

2021 – 2022

EXPERIENCE

Data Structures and Algorithms in JAVA

G.L.A University

Jan 2025 – Present

Mathura, UttarPradesh

- Having Problem Solving Skills and able to tackle Various real life Challenges through Programming
- Solved upto 160+ Leetcode Problems varies from Easy to hard
- Applied the knowledge of Programming to Solve the Various Questions in Coding Competitions

Web Development Intern

CodeSoft

Jul. 2024 – Aug. 2024

New Delhi, India

- Create Attractive Webpages by doing lots of Text Styling by using CSS
- Use HTML like a Programmer to Properly Structure the Website
- Work on a Project to Implement the Techniques to Ensure websites look and function well across various devices (desktops, tablets, mobile phones) using responsive design techniques

Machine Learning with Gen AI Intern

G.L.A University

June 2025 – Present

Mathura, UttarPradesh

- Works on Data Preprocessing for creating Machine Learning Models raw data from .csv files and Feature Engineering
- Works on Training Large Language Models (LLMs) and Learn Natural Language Processing (NLP) Techniques
- Multimodal AI
- Understanding Generative Models
- Generative AI (GenAI)
- Learn the Working of Transformers and Large Language Models - LLMs

PROJECTS

Plant Disease Prediction Model | *Python, NumPy, Pandas, Matplotlib, Seaborn, Streamlit, Git* Jun 2025 – July 2025

- Develop a Machine Learning Model which can detect whether the plant will suffer from any disease in the near future
- Data Cleaning and Preprocessing of Data .Model provides prediction on the basis of temperature, humidity, Rainfall and soil PH
- Model Selection and Training
- Helps the Farmers of our Country to prevent their crops from various diseases, infections if the crops goes from those Environmental Conditions

Customer Churn Prediction Model | *Python, NumPy, Pandas, Seaborn, Matplotlib, Git* Jun 2025 – July 2025

- Develop a Machine Learning Model which can predict whether the Customer is likely to churn in near Future or Not
- Preprocessing of Data and HyperParameter Tuning
- Best Model Selection and Training
- Helps Various Telecommunication Companies to know about how many Customers continued their various services or leave from their Services

TECHNICAL SKILLS

Languages: Java, Python, C, SQL, JavaScript, HTML/CSS

Frameworks: React, Node.js, WordPress

Developer Tools: Git, TravisCI, Google Cloud Platform, VS Code, Visual Studio, IntelliJ, Eclipse

Libraries: pandas, NumPy, Matplotlib, Seaborn

CERTIFICATIONS

Introduction to Generative AI Studio: Certificate code : 8511328

Google AI Studio Masterclass - A Gen-AI Certification Course : Certificate No. :
5f931cfe-5cc6-4fd0-8cf4-08934-eb741be

Basics of AI/ML Workshop : GeeksforGeeks

Machine Learning with Gen AI: W3 grads
